

Mobile Educational Package (Museum Kit)

Materials are included in the museum kit:

- The white fabric 15 meter roll represents the geologic time which is equal to the age of the Earth (4.6 billion years).
- Two additional fabric blue and brown 20 meters each symbolizing the sea and land, respectively.
- Rectangular cards in four colors that define the four eras of the Earth (Precambrian, Palaeozoic , Mesozoic and Cenozoic).
- Smaller cards for every era subdivisions (periods, epochs) in the following colors:
 - Dark brown - Precambrian .
 - Light brown for Palaeozoic era. Periods: Cambrian, Ordovician, Silourian, Devonian, Carboniferous, Permian in shades of brown (from darker to lighter).
 - Green for the Mesozoic Era. Periods: Triassic (purple), Jurassic (blue), Cretaceous (light green).
 - Yellow for Cenozoic era. Periods: Palaeogene (orange) and epochs Paleocene, Eocene and Oligocene in shades of orange. Neogene (yellow) and epochs Miocene and Pliocene in shades of yellow. Quaternary (beige) and epochs Pleistocene and Holocene in shades of beige.

- Four groups of images which includes representative organisms, for each geological era.
 - 4 cards - "Geologic Time ".
 - 4 cards -With the description of the major events of each era.
 - 1 Poster - "Geologic Time ".
 - A wooden rod of length 50 cm.
 - 8 ribbons, 5 different lengths and colors (purple, blue, green, red, yellow) and three different colors and the same length (red, blue, purple).
 - 5 tabs/exclamation - "Mass extinction".
 - 20 coloured cushions in the respective four colors have tabs four eras. (The pads are two beige for Precambrian, 5 brown for Paleozoic century, six green for the Mesozoic Era and 7 yellow for the Cenozoic century).
- 4 puzzles with pictures showing a typical image for each geologic era.
- Coloured cardboard, paint, scissors.
